

MENTO is a modern hallway unit range which appeals to the onlooker by way of its clarity and simplicity in design and its wide range of possible combinations involving different surface versions and front sections.

- **Various single units** in 3 heights
- **Mirror and clothes panels**
- **Accessories:** clothes hangers, protective mats, wall shelves, mirrors, lamps
- **IMPORTANT NOTE!** The single units offered in this list are only to be viewed as suggestions and can only show an excerpt from the many possible arrangements. Furthermore, you can also choose different combinations from the individual ranges (see the "Ideas for living" price list).

Important notes: Fittings for wall mounting are provided with nearly all the units which should be used for your own safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete and/or solid walls. Ideally, one should inquire about the soundness of the walls with regard to their suitability for mounting units when orders are placed and be sure to check them later before mounting any units. If any surfaces are not suitable for mounting units (e.g. plastered or lighter wall materials), one should use another method better suited to the material on site.

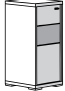

List of versions

Model no.	Version
192	White lacquer
193	Structured beech
197	Walnut

In MENTO colour combinations within individual units are possible. In this case please state the model number clearly and separately in the order!

			-	973 -
 Extendable clothes rod			734 -	
 Utensil basket (chrome, is fitted to the inner side of closed single units) Height: 10 cm; width: 28 cm; depth: 12 cm			094 -	
 Integrated power LED spotlamps for fitting in wall shelves; 3 W			7921 -	
 Tip-Tronic The lamps are normally operated by a standard external footswitch. As an alternative to the standard switch we can also provide a Tip-Tronic switch which is charged extra. By touching the Tip-Tronic sensor (aluminium colour, Ø 1.5 cm) it is possible to operate all the MENTO lamps (230 V, up to 250 W). The Tip-Tronic unit is fitted in wall shelves. Please mark the exact position of the Tip-Tronic sensor exactly in the sketch! The standard position is 6 cm from the right-hand edge of the given unit. The footswitch is omitted when a Tip-Tronic unit is included.			7619 -	

Special combinations are arrangements that are reduced in price. This price advantage is only available when the arrangement is ordered exactly as described. The special combinations can be enhanced by including accessories (fittings, etc). These are charged extra.
