

Versatility for decisive people.

Precious wood finishes, made even more scratch resistant by hülsta EverFinish, beautiful lacquers, brilliant high-gloss and elegant lacquered glass surfaces certainly do not make the selection of your CUTARO finishes an easy one. Each combination creates a balanced and comfortable atmosphere. Whatever your choice: the result will be perfect!

Version: light brown ash, sand lacquer, high-gloss sand, sand lacquered glass **Leather:** sand

Perfect for individualists.

Would you love a bedroom that looks completely different from anything you have ever seen before? Would you like each individual unit to be available in different sizes and

versions? Would you prefer to choose from the most beautiful combinations? If yes, then CUTARO has been made just for you!

Version: core walnut, sand lacquer, sand lacquered glass Leather: sand

1 The chests are available in 70 cm, 120 cm and 160 cm widths and 79 and 98.1 cm height. There is a choice of doors plus fitted shelves or drawers and many combinations of finishes.

2 Angular shelves with glass look even more stunning with optional lighting. Available in 50 cm, 70 cm, 120 cm and 160 cm widths.

The best way to start your day.

CUTARO is a perfect example of a hülsta bedroom: excellent functionality, high quality and meticulous craftsmanship. A range that is easy to plan and incredibly individual

whilst featuring an avant-garde contemporary design, giving a surprising twist to traditional bedroom units.

Version: core walnut, white lacquer, high-gloss white, white lacquered glass **Leather:** brown-black

1 A well-lit wardrobe is absolutely essential. This hinged door wardrobe with the angled passe-partout is perfectly lit by the optional LED surface mounted lights. They provide sufficient light to find everything that is inside the wardrobe and to see everything that is modelled in front of it.

2 The light around the bed should be bright but free from glare. The LED bed light with flexible swan neck is perfect for reading. The lighting of the paravent-style panel creates a comfortable ambience. The glare-free bed side lighting is ideal should you want to get up in the night. The LED interior drawer lighting provides full view of the inside right into the corners of the drawers.

Defying gravity.

This combination of the CUTARO bed with paravent-style headboard overhang on both sides plus consoles with one drawer in each seems to defy gravity. Invisible but comfortable: the adjustable support slats on the inside of the bed frame can be adapted to the height of your sleeping system.

1 A wide choice: the carcass of the ancillary units is available in white lacquer or sand lacquer; the handles are available in light brown ash and core walnut, there is a choice of white lacquer, sand lacquer or white or sand lacquered glass for the fronts.

2 A CUTARO bed without the paravent-style headboard overhangs completely in white lacquer with a white leather overlay and elegant core walnut accents. The shadow gaps underneath the 2-drawer consoles create a "floating" impression.

Version: core walnut, sand lacquer, sand lacquered glass **Leather:** brown-black

CUTARO compact

hülsta 

Passe-partout. Give your CUTARO wardrobe a frame that will make a stunning style statement. The LED surface mounted lights enhance the brilliance of the high-gloss fronts.

Exciting diagonals. The elegant decorative seams on the leather headboard cleverly repeat the diagonal lines of CUTARO's fractal design. The shape is also continued in the paravent-style headboard overhang.

Calm parallels. For a more subtle design, choose the same clean pattern for the decorative seams as on the leather bed frame.

Structured. The unique CUTARO design feature – the fractal structures – can be used to suit your individual requirements. The visual effect is always beautifully balanced.

Simply beautiful. Even without the elegant fractal design in the front of the upper drawer, the 98.1 cm high CUTARO chest with 5 drawers is a distinctive bedroom unit.

Genuine leather. This bed frame is worth a closer look. Pigmented leather featuring decorative leather seams repeats the stunning design of the leather headboard.

Elegant lacquer. The bed frame provides a seamless, tone-in-tone combination with the high-quality leather overlay of the headboard. The softened bed clasp is a practical design feature.

Single. If you do not require too much storage space next to the bed, then the 70 cm wide console with "floating" effect and one drawer on the paravent-style headboard will be the perfect choice.

Double. This console provides double storage using two drawers. Despite the generous dimensions, it creates a light visual impact, just as the entire bed.

With paravent-panel. Simply follow the inviting gesture of the paravent-panel with ambient lighting, make yourself comfortable in bed and relax.

With free space. The headboard version without paravent also allows comfortable reading. The swing-out LED bed reading light with swan neck is fixed on the headboard and can easily be operated whilst lying down.

Authentic. The distinctive fractal structures, shown here on the right door of the 120 cm wide console, make CUTARO an excitingly different bedroom range, effortlessly combining comfort with avant-garde design.
